SAI AGRO FORESTRY Pvt. Ltd.

# About Us

*Rooted in Nature, Growing for the Future*

Welcome to **Sai Agro Forestry Pvt. Ltd.**, your trusted partner in embracing the richness of North-eastern India's organic and natural treasures. Founded with a commitment to sustainability, quality, and authenticity, we take pride in bringing the finest agricultural and forestry products from the verdant lands of the Northeast to your doorstep. We are deeply committed to supporting the Organic and Sustainable Movement across the globe. Our practices are thoughtfully designed to align with the needs of our farmers, ensuring they receive the essential support required to cultivate nourishing varieties of organic foods. We provide state-of-the-art technological practices, supply organic fertilizers, and extend both monetary and non-monetary benefits. Our mission is to champion the Northeast's unique organic products by fostering a holistic and sustainable agricultural ecosystem.

At **Sai Agro Forestry Pvt. Ltd.**, we are dedicated to cultivating the finest organic produce alongside nurturing biodiversity through our extensive range of bamboo and forest seed nursery offerings. By partnering with a committed farming community, we uphold traditional agricultural methods such as crop rotation and the use of natural manure. These practices not only yield the highest quality crops but also promote environmental sustainability. Serving as a crucial link between farmers and consumers, we process raw agricultural products in state-of-the-art facilities, ensuring that every organic product we deliver is authentically fresh and nutrient-rich.

In addition to producing premium organic foods, we specialize in the nursery propagation and supply of diverse bamboo saplings and seeds, as well as a variety of other forest seed species. By doing so, we contribute to enriching our ecosystem and promoting sustainable forestry. Choose Sai Agro Forestry Pvt. Ltd. for responsibly sourced, sustainable products that prioritize both personal and planetary health.

## Leadership

*Our Founder Director and CEO, **Mr. Shambu Debnath** along with his partner **Mr. Sajal Sarkar** plays a pivotal role in the growth and success of **Sai Agro Forestry Pvt. Ltd.** With more than **10 years** of experience in the Agro-forestry sector, organic farming, certified seeds supply and fair trade practices, Mr. Debnath's sheer determination, dynamism, and visionary leadership have steered the company towards remarkable achievements. Driven by his passion for sustainability and innovation, he aims to position India as a global leader in sourcing organic raw materials, fostering both economic growth and environmental stewardship.*

*Join us in our journey to explore the authentic and sustainable flavours of the Northeast. Together, let's make a difference—one product at a time.*

## A PRISTINE ORGANIC TREASURES

### BAMBOO SEEDS

Our Bamboo Seeds are sourced from the lush, fertile lands of Tripura & other North Eastern states of India. Known for their high germination rate, these seeds are perfect for eco-conscious gardeners. Bamboo is one of the fastest-growing plants, helping reduce carbon footprints and promote sustainability. These seeds are ideal for landscaping, privacy screens, and even construction materials. With minimal maintenance and natural pest resistance, they thrive in various soil types and climates. Cultivated with traditional, sustainable practices, these bamboo seeds offer you a resilient, low-impact way to enhance your garden while contributing to a greener planet. So for vast plantation purposes we have more than five to six variety of bamboo seeds species.

### VEGETABLES SEEDS

The Vegetable Seeds of us are harvested from the fertile, untouched lands of Northeast India, a region known for its clean environment and rich biodiversity. These seeds offer high-quality germination and are perfect for growing a wide variety of vegetables, from hearty root crops to vibrant greens. Adaptable to different climates, they thrive with minimal care, making them ideal for both novice and experienced gardeners. Grown using natural, sustainable methods, our seeds promote healthy, chemical-free produce. With every seed you plant, you are supporting local farming practices and bringing the authentic, fresh flavors of Northeast India straight to your garden.

### BAMBOO SAPLINGS

The Bamboo Saplings of Ours Nursery Bed are of seed origin, sourced from the fertile and biodiverse region of Tripura, India, represent the highest quality in sustainable growth. Tripura's unique climatic conditions provide an ideal environment for producing robust, healthy bamboo saplings with superior resilience and growth potential. Also we have five to six variety of sapling. These saplings are perfect for applications such as landscaping, privacy screens, and sustainable building materials. Known for their rapid growth, limited maintenance requirements, and natural pest resistance, they thrive in a variety of soil types and climates. Cultivated using sustainable agricultural practices, our bamboo saplings not only enhance your landscape but also support environmental conservation efforts.
